A 0021816 [95(2000.1.1)]

- 9-5 plant quarantine certificate
- 1 original 3 copies,
- used to certify import plants, plant products, plant packaging materials, plant wastes, soil, virus, bacterial, and biological material that do not meet the quarantine requirements of China.

# 4、 The Identification codes

- The identification code has 15 digits.
- The first 6 digits represent the identification code of its corresponding CIQ .
- The 7th digit identifies export from import (1 represents exports, 2 represents imports).
- The 8th and 9th digit represent the year, and the last 5 digits are for serial numbers.

# 4、 The Identification codes

470700209012836

470100208251371

# 5、 Management of Certificates

- All unused certificates are stored in each entry-exit inspection and quarantine bureaus.
- All issued certificates are placed in archive.
- Type 5-1 and 5-2 are kept for 2 years and type 9-5 is stored for 3 years.

# 6、 Fighting Against Illegal and Fake Certificates

- Cases that the merchant use fake certificates for declaration have surfaced constantly throughout the world.
- Not only does this undermine the reputation of the respective quarantine institution, it damages the implement of international plant protect efforts, accelerates the spread of plant pests which ultimately creates a blockade for international trade.
- The Electronic phytosanitary certification is an appropriate way to fight against the fake phytosanitary certificates. .

**Thank you!**
