SYMPOSIUM
9:00 am –6:00 pm
Santa Catalina Ballroom
“Less is more: Precision safeguarding”

Objectives:

“Safeguarding” can generally be defined as:

- *Verb. Protect from harm or damage with an appropriate measure.*
- *Noun. A measure taken to protect someone or something or to prevent something undesirable.*

The 2018 Symposium will explore strategies for dealing with increased plant protection demands in an era of static or declining resources. Within plant protection, there is demand for more tools, to facilitate and support safe, expanding and fast agricultural trade. In the future, we foresee increased international and regional cooperation to develop and implement harmonized, risk-based, and targeted standards, tools and measures to support safe trade in the face of declining or fixed phytosanitary resources worldwide. As such, the 2018 NAPPO Symposium seeks to:

- Examine the concepts of precision agriculture, the safeguarding continuum and precision safeguarding, and engage in a discussion of the advantages and challenges of these approaches;
- Explore how National Plant Protection Organizations (NPPOs) can utilize these approaches and concepts to more effectively target pest risk by considering interventions along the entire plant or plant product pathway;
- Examine how leveraging data and analysis and enhancing the role of industry in risk management can fine-tune the determination of the right effort at the right place for the right outcome or effect in safeguarding;
- Explore opportunities to tailor regulatory (and non-regulatory) approaches to optimize plant protection; and
- Discuss the potential application of these concepts/approaches in the NAPPO region and beyond.

7:00 – 8:00	NAPPO Participants Breakfast	TBD
7:30 -8:30	Poster and Demo set-up (TBC) (or if needed, demo could occur @8:30 am)	

Opening Session – SETTING THE STAGE		
9:00 – 9:10	Morning welcome; reminder of ground rules	Bolduc , Canadian Food Inspection Service (CFIA)
9:10 – 9:25	Welcome remarks- Setting the stage from an NPPO Perspective: Why are we thinking about precision safeguarding? What are the challenges?	El-Lissy , U.S. Department of Agriculture, APHIS-PPQ
9:25 – 9:40	Setting the stage from the NAPPO Secretariat Perspective: Precision agriculture, the international regulatory framework and why the topic is important to the NAPPO region?	Bloem , North American Plant Protection Organization (NAPPO)

9:40 – 9:50	Question & Answer Panel	Speakers from Opening presentations. Facilitated by: Bolduc , CFIA
Section 1 - FOUNDATIONAL LECTURES		
<i>Lessons learned from “precision agriculture” and the concepts of the “safeguarding continuum” and “precision safeguarding” as a base for possible paradigm shifts for pest risk management.</i>		
9:50 – 10:20	The Safeguarding Continuum: Significance of the concept, its technical interpretation, and potential aspects of its application by government and industry	<i>Griffin/APHIS-PPQ or Ahern/ IICA, TBC</i>
10:20 – 10:50	Precision Safeguarding, a Paradigm Shift for Pest Risk Management: Applying the right amount of effort and resources at the right time and at the right place for maximum effect requires leveraging technology, analytical capacity and broad cooperation.	<i>Griffin/APHIS-PPQ or Ahern/ IICA, TBC</i>
10:50 – 11:15	Coffee Break, poster viewing and possible demo (25 min) (tractor display and demo on unmanned aircraft systems or UAS, TBC)	Demos- Parking Lot near Ballroom Poster viewing in plenary room
11:15 – 11:45	Monitoring and Compliance–striking the right balance (ties to precision safeguarding, and links to alternative service delivery and standards).	<i>Canada/CFIA speaker</i>
11:45 – 12:00	Question and Answer Panel	Speakers from the last three presentations. Facilitated by: Bolduc , CFIA.
12:00 – 13:00	Lunch on your own/ Posters available for viewing (Options available @hotel)	
Section 2 – TOOLS FOR PRECISION SAFEGUARDING		
<i>Discussion by experts on Risk-based approaches/ Leveraging Data and Analytics to help prioritize safeguarding investments.</i>		
13:00 – 13:15	Integral System of the Inspection Service/ Sistema Integral del Servicio de Inspeccion (SISI)	<i>Mexico/ SENASICA-DGIF speaker</i>
13:15 – 13:30	Canada/CFIA or gov’t examples and speaker	<i>Canada/ CFIA speaker</i>
13:30 – 13:45	U.S./APHIS-PPQ examples and speaker	<i>U.S./ USDA-APHIS-PPQ speaker</i>
13:45 – 14:00	Human-Machine Teaming Analytics System for Cross-Border Biological Threat Characterization, Visualization, and Risk Assessment	<i>TBC- Lapitan, U.S. Department of Homeland Security, Customs and Border Protection</i>
14:00 – 14:15	Question and Answer Panel	Speakers from the last four presentations. Facilitated by: Bolduc , CFIA.
<i>Risk-based Approaches- Background and Examples from the NAPPO region</i>		
14:15 – 14:30	Risk-Based Sampling as it Relates to Precision Safeguarding. How can RBS serve as a foundation for future, precision safeguarding approaches?	<i>U.S./ USDA-APHIS-PPQ speaker</i>
14:30 – 14:45	Risk-Based treatments: Examples from Mexico’s perspective	<i>Mexico/SENASICA speaker</i>
14:45 – 15:00	Systems approaches for pest risk management and their linkage to the safeguarding continuum.	<i>Canada/ CFIA speaker</i>

15:00 – 15:15	Coffee Break and Poster Viewing Session	
15:15 – 15:30	Question and Answer Panel	Speakers from the last three presentations. Facilitated by: Bolduc , CFIA.
Section 3 – ENHANCING INDUSTRY’S ROLE IN RISK MANAGEMENT (i.e., INDUSTRY-BASED RISK MANAGEMENT)		
<i>The discussion seeks to explore risk management designs that articulate with industry and that integrate with regulations and international standards. Industry-Government partnerships in NAPPO countries, related to the safeguarding continuum and precision safeguarding are highlighted. (**Each country can also split below presentations into gov’t/ industry 10 min presentation each)</i>		
15:30 - 15:40	How does precision safeguarding affect safe trade? How does a risk-based philosophy or concept potentially apply to or benefit the phytosanitary export certification process? What are the opportunities for trade in taking a more precision-based approach in safeguarding?	<i>U.S./ USDA-APHIS-PPQ speaker</i>
15:40 - 16:00	MEXICO - examples and industry speaker	<i>Mexican industry speaker</i>
16:00 - 16:20	UNITED STATES - examples and industry speaker	<i>U.S. industry and gov’t speaker</i>
16:20 – 16:40	CANADA - examples and industry speaker	<i>Canadian industry speaker</i>
16:40 – 16:45	Questions and Answers	Facilitated by: Bolduc , CFIA.
Section 4 – BRAINSTORMING FOR THE FUTURE		
<i>All participants will be divided into simultaneous brainstorming groups (of 15-20 people each) to discuss specific questions related to precision safeguarding and the Symposium, exploring how these concepts can be applied looking into the future and also analyzing the industry presentations.</i>		
16:45-17:30	Discussion Groups: Four to six simultaneous break-out groups to discuss specific topics below.	
	<ul style="list-style-type: none"> • Application of Precision Safeguarding and related concepts: How can these concepts and innovations be further applied by the NPPOs in the NAPPO region? • Industry based risk management: How can industry be more involved? What sort of industry practices or programs exist that can be leveraged? • Harmonization: Any potential ideas for future harmonization work? What gaps could be filled by new guidance and/or standards? • Targeting of measures: How can we make risk management measures more targeted and more cost-aware and more measured for the greater good? 	<i>Each group will select a discussion leader/ Chair, a note-taker, and rapporteur so that the results of the discussion can be presented to the entire group, focusing on 2-3 simple points for take-home messages. Each group will need interpretation.</i> Each topic will have: <ul style="list-style-type: none"> • Discussion leader • Note-taker to take notes on giant post-its • Rapporteur • Interpreter
17:30-17:45	Present results from interactive session – each Group“ chairperson” to present results and 2-3 simple points for “take home messages”	Rapporteur to present results of their group discussions
17:45-18:00	Take home messages and conclusions	Bloem , NAPPO ED/ Bolduc , CFIA
