Summary

General comments
EG members introduced themselves following welcome remarks provided by the NAPPO TD.

Item 1: General review of the first draft of the discussion document – All
Consensus: Work is needed to align the type of information to include and the format.

Introduction
A paragraph needs to be added at the beginning of the document to describe the project objectives.
Information on the economic impact (crop loss) based on what is occurring in countries where Tuta absoluta is present could be added.

Section 3: Overview of Tuta absoluta pest risk
We will divide this section by country and participants from each country are responsible for populating the additional information.
It should briefly describe the potential impact on the environment and greenhouses.

Potential economic impact in the NAPPO region
This will become section 4 and it should focus on trade impact.
Participants will include the value and/or volume of import and export for hosts of Tuta absoluta for their country.

Item 2: Discussion: Emergency response plan – All
Consensus: More discussion is needed to clarify what information we want to include in this section.

As per the project proposal, the objective was to develop a response plan that would mitigate the impact of Tuta absoluta on trade (and supply chain) of tomato fruit in an effort to facilitate trade should this
pest be found in a NAPPO member country.

Item 3: Next steps

Consensus: For the next video conference:
- The EG will continue to discuss item 2: response plan.
