

## FINAL AGENDA – 45<sup>th</sup> NAPPO Annual Meeting

### Day 1 – Tuesday, October 18, 2022

time EST	Subject	
10:00 – 10:10	Welcome	JF Bolduc, Facilitator/Moderator
10:10 – 10:15	Welcome Remarks	The Honourable Marie-Claude Bibeau, MP Minister of Agriculture and Agri-Food Canada
10:15 – 10:25	Welcome Remarks	Jean-Guy Forgeron, Executive Vice President of the CFIA
<b>Reports – NAPPO member countries, NAPPO Secretariat and IPPC Secretariat</b>		
10:25 – 10:45	Canada	Steve Cote, CFIA
10:45 – 11:05	United States	Mark Davidson, APHIS-PPQ
11:05 – 11:25	Mexico	Francisco Ramírez y Ramírez, DGSV-SENASICA
11:25 – 11:50	NAPPO Secretariat Report	Stephanie Bloem, NAPPO
11:50 – 12:15	IPPC Secretariat Report	Osama El-Lissy, IPPC Secretary
12:15 – 12:30	Q&A	JF Bolduc, Facilitator/Moderator
<b>90-minute break</b>		
14:00 – 15:00	<b>CLOSED MEETING</b> – Industries of NAPPO member countries. One Zoom room each for industries from CAN, the U.S., and MEX	Each IAG member will lead discussion in their specific Zoom room; meetings run concurrently and are closed-door; <b>no interpretation</b>
15:00 – 16:00	<b>CLOSED MEETING</b> – Governments and industries of NAPPO member countries. One Zoom room for each combined	Meetings run concurrently and are closed-door; <b>no interpretation</b>

	Govt./industry meeting (CAN, the U.S., and MEX)

**Day 2 – Wednesday, October 19, 2022**

time EST	Subject	
10:00 – 10:05	Welcome; house rules refresher	JF Bolduc, Facilitator/Moderator
<p><b><i>Symposium - The impacts of climate change on plant health</i></b></p> <p><i>The assessment and management of climate change impacts on plant health is one of the 8 development agenda on the IPPC 2020-2030 Strategic Framework.</i></p> <p><i>The mitigation of climate-change related impacts on agriculture and plant health will present a major challenge to National plant protection organizations (NPPOs) and international organizations in the plant health field. Changes in food production patterns and trade will become apparent over the next decades. The resulting changes in plant health, such as anomalies in pest epidemiology and frequent expansion of pest distributions, will provide challenges, especially in the areas of surveillance, monitoring, and pest risk analysis. The danger of pests adapting to changed climate parameters may cause new pest risk to major staple crops.</i></p> <p><i>The topic for this year’s symposium during the NAPPO annual meeting will be on the impacts of climate change on plant health, including the related realities and needs. This will be an opportunity for governments and industry in North America to discuss:</i></p> <ul style="list-style-type: none"> <li>• <i>What impacts are we seeing now and has this changed our expectations for the impacts on plant health, what are the current related plans and policies relating to adaptation?</i></li> <li>• <i>Threats and opportunities: new pests (extended host range) and new cropping options and possible new related pests.</i></li> <li>• <i>What should we be doing in plant health legislative control and multilaterally?</i></li> </ul>		
10:05 – 10:10	Symposium Objectives	Greg Wolff, CFIA
10:10 – 10:30	Setting the stage at the International Level - IPPC Study on Climate Change	Prof. Maria Lodovica Gullino, AGROINNOVA, Università degli Studi di Torino
10:30 - 10:40	IPPC initiatives - 2020-2030 Strategic Framework and Focus Group (FG) on Climate Change	Karen Castro, CFIA and IPPC FG member
10:40 – 11:00	Setting the stage at the Regional Level - NAPPO discussion and position documents on climate change - What are the remaining uncertainties relating to climate modelling, and related risk assessment?	Cheryl Corbett, CFIA

	- What plant health impacts are already evident – are things unfolding in unexpected ways?	
11:00– 11:30	Canadian Government - Current Plans and Policies relating to plant health and climate change - What plant health changes, impacts, and adaptation are we seeing now (case studies)	Bill Anderson, Executive Director, Plant Health Science Directorate, Government of Canada
11:30 – 12:00	U.S. Government - Current Plans and Policies relating to plant health and climate change - Tools are useful to understand the effects of climate change	Glenn Fowler, APHIS-PPQ Yu Takeuchi, NCSU-CIPM
12:00 - 12:15	Q&A	JF Bolduc, Facilitator/Moderator
<b>90-minute break</b>		
13:45 – 14:15	Mexican Government - Plant health and climate services: a transversal approach to look after climate change	Óscar Sánchez Martínez, SENASICA-DGSV Guillermo Santiago Martínez, SENASICA-DGSV
14:15 – 14:35	Canada - Changes in industry: - Pest risk and climate change - developing proactive risk management tools and partnerships for production nurseries	Jamie Aalbers, Canadian Nursery Landscape Association Anita Heuver, Eagle Lakes Nurseries Ltd.
14:35 – 14:55	United States - Changes in industry: - Perspectives on Horticulture and Climate Change - Climate Change – Effects on the Wood Pallet and Wood Packaging Industry	Craig Regelbrugge, American Hort and NAPPO IAG Brad Gething, NWPCA
14:55 – 15:15	Mexico - Changes in industry: - New crop opportunities and related pest pressures, trade practices and trading patterns due to climate change	Mario Puente, Executive Director AMSAC and NAPPO IAG
15:15 – 15:30	Discussion, next steps, and Q&A	JF Bolduc, Facilitator/Moderator

### Day 3 – Thursday, October 20, 2022

time EST	Subject	
10:00 – 10:05	Welcome; house rules refresher	JF Bolduc, Facilitator/Moderator
<b>Reports - NAPPO Projects</b>		

<b>Ongoing Projects</b>		
10:05 – 10:25	A pilot for harmonization of diagnostic protocols for seed pests focused on <i>ToBRFV</i>	Vessela Mavrodieva, APHIS-PPQ Beatriz Xoconostle, CINVESTAV
10:25 – 10:40	Standardization of responsibilities and actions for safeguarding consignments that have transited one NAPPO country to enter another NAPPO country	Brendon Reardon, APHIS-PPQ
<b>Permanent Projects</b>		
10:40 – 11:00	ePhyto	Christian Dellis, APHIS-PPQ Delfino Hernandez, SENASICA
11:00 – 11:10	Phytosanitary Alert System	Ignacio Baez, APHIS-PPQ
11:10 – 11:20	Collaboration with RPPOs of the Americas - GICSV	Maribel Hurtado, NAPPO
11:20 – 11:30	Risk-Based Sampling tools – modules, manuals, app	Maribel Hurtado, NAPPO
11:30 – 11:40	RSPM 35	Randi Jimenez, CDFA
11:40 – 12:00	Q&A – EG reports 1-7	JF Bolduc, Facilitator/Moderator
<b>New Projects</b>		
12:00 – 12:10	Citrus greening	Victoria Hornbaker, CDFA
<b>90-minute break</b>		
13:40 – 13:50	RSPM 26	Bruno Gallant, CFIA
13:50 – 14:00	Forest Quarantine Research Group	Meghan Noseworthy, NRCAN
14:00 – 14:10	Retrospective on BW Cooperation 2016-2022	Matthew Aubuchon, APHIS-PPQ
14:10 – 14:20	Q and A – EG reports 8-11	JF Bolduc
<b>Looking Ahead</b>		
14:20 – 14:40	New NAPPO Strategic Plan and looking ahead to 2023	Stephanie Bloem, NAPPO
14:40 – 14:50	Q&A	JF Bolduc
14:50 – 15:00	Final comments, close of meeting announcement of the 2023 Annual Meeting	Stephanie Bloem, NAPPO Francisco Ramírez y Ramírez, DGSV-SENASICA
