

United States Department of Agriculture

IPPC Steering Group

Christian B. Dellis

Steering Group - Beginning

- CPM-8:
 - Create the Steering Group
 - Composed of:
 - One Bureau Member
 - Representative from each of the FAO regions
- Purpose:
 - Oversight
 - Guidance
 - Advice

Steering Group - Continued

- CPM-9:
- ePhyto Steering Group continues its work:
 - increase awareness
 - capacity development opportunities (with the Capacity Development Committee)
 - procedures for maintenance of harmonised terms, codes and transmission protocols
 - updating transmission protocols and the databases of harmonised terms and codes
 - continue analysis of ePhyto hub considering the ePhyto Hub Feasibility Study provided in CPM 2014/INF/13
- Report back at CPM-10 (2015) on progress, and recommendations to the CPM on how to proceed.

Steering Group - Now

- Monthly conference calls
- Two meetings
- 7 main tasks:
 - Maintaining Harmonization
 - Hub Development
 - Capacity Development
 - Financial
 - Legal
 - Communications
 - Program Management
- Subgroups of technical experts

Steering Group

- 4 factsheets (5th pending)
- Outreach at meetings (regional workshops)
- FAQs being developed
- Capacity Development Committee scoping document
- Expert panel reviewing “Hub service” document
- Existing list review
- Reviewing existing systems/opportunities for expansion

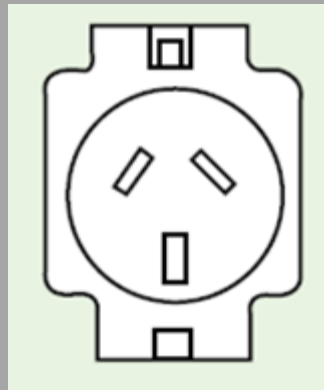

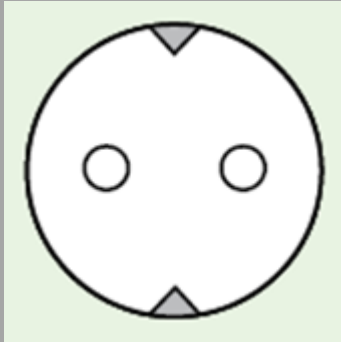

Dotting the “i” and Crossing the “t”

- What is ePhyto?
- Why do ePhyto?
- What changes?
- What opportunities does ePhyto create?
- What obstacles does ePhyto create?
- What is industry’s role?
- How do you handle certain issues?
 - Replacements
 - Notices of non-compliance
 - Clearance
- Paper standard (ISPM12) versus IT standards (UN/CEFACT)

eCert Challenges

- Not just related to technical capabilities
- Continual evolution of eCert XML schema
 - U.S. using 6.0
- Web security mechanism
 - Digital signatures, encryptions (1 or 2)
- Non-uniform codes
 - Data
 - Error handling (basic and data related)
- ISPM12 versus electronic systems
 - Free for all versus structure
 - Commodity versus certificate Additional Declarations
 - Multiple units/packages
 - Complete rework for many systems
- Treatment (Process)
- Attachments

Questions for Discussion

- What is my NPPO's biggest constraint to being able to move to electronic certification?
- Does your NPPO have domestic legislation or regulations that would present a barrier to electronic certification, e.g. Requirements for paper certificates, specific formats for certificates, wet signatures?
- If you established a national electronic certification system how would you cover the costs?
 - Government funding?
 - Cost recovery from exporters?
 - Do you have the legal power to cost recover from exporters?
- If a basic generic electronic system to exchange certificate information was available to NPPO's, would your NPPO want to or be able to use it?
