<b>Summary</b>		
Assignment 1:	Recommend technically justified phytosanitary measures to manage the risk of introduction of <i>Lobesia botrana</i> into NAPPO countries, including measures to deal with a possible outbreak.	
Consensus:	<p>Members ensured they were all using the same last version of the document in order to harmonize comments. Juan José Flores pointed out that there was a list of 16 items that should be included in the final document. Lisa reminded the Panel that the current document reflects the information requested in the 16 items.</p> <p>The title of the document was discussed, with the recommendation that it reflect the assignment as set out by the Executive Committee.</p> <p>Dominique will revise the final <i>Lobesia</i> document and send in his comments by Sept 13.</p>	
Assignment 2:	Provide oversight to a Technical Advisory Group (TAG) to compile and analyze the available scientific information on <i>Drosophila suzukii</i> . (Spotted Wing Drosophila-SWD)	
Consensus:	José Manuel will contact the President of the <i>Drosophila</i> TAG to follow-up on the topic.	
Assignment 3:	TAG Progress: Trapping TAG	

Consensus:	Lisa and José Luis will coordinate in order to conclude the revision of the final document. Joe Cavey, Juan José Flores and Carlos García still need to send in their revisions. José Luis will contact Carlos García for him to send in the revisions that were assigned to him.
Assignment 4:	TAG Progress: <i>Rhagoletis</i>
Consensus:	The document was presented as a publication in a scientific journal.  José Manuel shared the document with Juan Rull and Vicente Hernández for a final review, due by September 13.
